Notice to the Public.

The breaking up of the cold weather, and the presence of Spring, excite the bile and inertia of our citizens, causing a feeling of lassitude and heavmens, aching and dizzinces of the head, and what is commonly known as SPRING FEVER. And why? Because the sudden change of weather calls all the impurities and secretically all the common the color of the sudden change of weather calls all the impurities and secretically all the common the color of th tiens of the system into action, and the results are the ills com-plained of; but there is a sure and certain remedy. "THE BLOOD IS THE LIFE," and if the BLOOD be free toom all impurities and putrid humors, there will be no disease.

Dr. S. P. TOWNSEND'S SARSAPARILLA,

as manufactured under the direction of the celebrated chemist and physician, Dr. JAMES R. CHILTON, is the only effective and RENOVATOR AND PURIFIER OF THE BLOOD,

us it contains all the vegetable substances which experience tested and proved useful in ERADICATING DISEASE FROM THE SYSTEM.

A few bettles will most effectually regulate and cleanse the sys-tem, and KEEP THE BLOOD PURE. ESTABLISHED IN THE CITY OF NEW-YORK IN

BEADLE 8 DIME BOOKS!

"A VERY DECIDED HIT:"

"The Dime Dialogues, and other Dime publications of Messrs.
Irwin F. Beadle & Co., are a very decided int." For the trifling sum of ten cents you get, in paper covers, about the same amount of matter which is contained in an ordinary bound octave of 150 to 200 pages, sold for a dollar. The selections made for the 'Dime Speaker'—the 'Dime Melodisk'—which we have examined—are excellent, and each constitutes a volume richly worth a larger price. The 'Speaker' and the 'Dislogues' will be found very useful for schools wanting something new for an approaching earlibition. The Dime Series embraces also a 'Cook Book' and 'Recipe Book,' an 'Etiquette Book,' and 'Letter Writer,' and each is a 'multum' in matter, for a 'parvum' in price."—[Educational Herald.

THE SECOND VOLUME IS NOW READY PARTON'S LIFE OF ANDREW JACKSON. PARTON'S LIFE OF ANDREW JACKSON.

To be completed in three large 8vo volumes, with steel portraits. Frice, in cloth, \$2.50 per volume. The remaining volume will be published in a few months.

Hasper's Weekly, which should be well informed in regard to boots, recently pronounced Mr. Parton's Lite of Aaron Burr'the most successful biography ever published in this country. Yet the first volume of Jackson is admitted by all to give promise of a still more ab e and fascinating work. It has been received with extraordinary favor by the press, with scarcely any exceptions and the public, and has ciled forth some of the most highly commencatory and at the same time able and discriminating seviews we have ever seen of any book. Especially in Tennessee and the South and West, where Jackson is best known, its truthfulness, impartiality, richness in new materials, and fascinating interest are groatly praised. Witness the following:

Tennessee and the South and West, where Jazzeon is Dest known, its truthfulness, impartially, richness in new materials, and fascinating interest are greatly praised. Witness the following:

"We are glad to see a work written, after so long a time, that does him ample justice, giving us the life as it was, eraggerating nothing concealing nothing, extendanting toothing, prosenting truly every act of his life, and illustrating every period by aneodotes and incidents that vivially illustrate his character and the characteristics of the times in which he lived.

It is a wort of timiling interest, and leaves the impress of cander and truth on every page."—[Memphis Appeal.

"He has made the picture as natural as life, and as fascinating as it is natural."—[Memphis Avalanche.

"Farton has succeeded because, as Jackson himself would have wished, with sin-pic ndeilty he has boldly, and therefore prudently stated facts outright without glose or varnish.

He is almost alone among biographers in reducing to practice the lesson of common sense which is true enough as a maxim, that men, after all, will not take tinsel for truth. Jackson stands out in this work of remarkable graphic power and naturalness as the life-like, indomntable and real man that he was."—[Presbyterian Sentine], Memphis.

"It has remained for Mr. Parton to write a biography that is appreciated and admired by the people as well as the literatif. Everynody who has read it praises." Farton's Life of Jackson. In all our exchanges we observe the highest encominums passed upon it: "I classes stitufulness of the author, and admit that he has written the Life of Jackson as Jackson wished it written—with truth and ndelity."

"The first installment of his present production is one of the most cutertaining and instructive books we have ever read."—Russell's Magazine, Charleston, S. C.

"We have read enough to satisfy us of two things, namely, the laborious industry of the author, and the romantic interest of the book."

"The first installment of his present product

This creation has been pronounced by hundreds of the most refined and cultivated, who have witnessed it with emotion of deep delight, as one of the most CHASTE,

The performance of Evangeline has, in fact, inaugurated a newer on the American stage. It is the first play based upon one of the most tragical events in American his; ry, in which the steer arts of Music and Painting of the highest order are so successfully introduced that the senses of the audience are facebased by a fairy circle of rangistic sound and pi threeque imagery, while the interest and affections are absorbed by the plot.
